EDUCATION

Boston College, Morrissey College of Arts and Sciences

Chestnut Hill, MA

Bachelor of Science in Computer Science, Minor in Management and Leadership

May 2026

Cumulative GPA: 3.72

Relevant courses: Computer Science 1 Honors, Computer Science 2, Logic and Computation, Computer Organization and Lab, Computer Systems, Calculus 2, Multivariable Calculus, Linear Algebra, Differential Equations, Randomness and Computation, Algorithms, Topics in Computational Intelligence: Machine Learning Projects

TECHNICAL SKILLS

Proficient in Java, Python, C, Ocaml, HTML, JavaScript, CSS

Competent in ARM assembly language, x86 assembly language, SpringBoot, React, Linux

RELEVANT PROJECTS

VulnML: Detecting Code Vulnerabilities using Machine Learning - https://github.com/Bevingta/vuln_ml

Collaborated with a team of four to develop and evaluate ML models for classifying C code snippets as vulnerable or safe. Built and benchmarked multiple approaches, achieving 88.48% accuracy with the top-performing model—outperforming traditional and graph-based baselines.

Boston College IAM Revamp

Collaborated with a team of seven software developers at Boston College Middleware to restructure affiliation calculation code for the identity and access-management system. Improved code organization and documentation, enhancing understanding and adaptability.

TrailPlanner – Hiking Trip Planning Web App (Ongoing) - <https://github.com/alexv26/TrailPlanner>

Designing and developing a full-stack web application to help hikers automate and streamline trip planning. Building dynamic trip creation using React, JavaScript, HTML/CSS, and MongoDB. Integrating APIs and AI features to autofill logistics and safety information. Implementing secure login, user accounts, and a gallery of reusable community trip plans to reduce redundant input.

WORK & LEADERSHIP EXPERIENCE

Boston College Intramural Sports

Boston, MA

Supervisor, Official

January 2023 – Present

- Ensure a safe environment for the Boston College community to participate in their favorite sports and make connections with community members.
- Supervise a team of referees, and facilitate training and team building for incoming officials in order to integrate them into the team and learn how to be effective leaders.

Boston College Middleware

Boston, MA

Software Development Intern

May 2024 – September 2024

May 2025 – September 2025

- Collaborated with a team of seven software developers to document, develop and test software using Java and the Spring Boot framework.
- Participated in team meetings, provided insight on ways to streamline and improve current systems.
- Contributed to the documentation of the IAM system as it evolved to facilitate easy ways for new employees to understand the flow of the program and to permit easier modification.
- Tested and provided feedback on the password reset service through BC's student portal.

Tatte Bakery

Boston, MA

Barista, Counter Staff

September 2020 – September 2023

- Responsible for orientation and training of new staff members, which included helping new hires integrate into the team, understand their roles and responsibilities, and ensure consistent team efficiency.
- Delivered exceptional customer service and handled customer complaints.
- Prepared orders for customers, ensuring the quality of the meals met company standards.
